Change Notification - BioClean™ Clearview Sterile Visor Face Mask: Visor Material Change

Dear Valued Customer

We have received communication from our supplier that the raw material used for the visor on the BioClean™ Clearview Sterile Visor Face Mask will be discontinued and replaced with an alternative material.

The following product styles will be affected by this change and manufactured using the new visor material from August 2023 production, we will provide the 1st lot numbers when they become available.

- VFM210-L
- VFM210-TSLOT
- VFM210-T

Please refer to Table 1. below for the **PRODUCT SPECIFICATION COMPARISON** between the existing and new material on the visor of the VFM face masks.

VFM210-L/ VFM210-T/ VFM210-T-SLOT Existing Visor Material	DESCRIPTION	VFM210-L/ VFM210-T / VFM210-T-SLOT New Visor Material
Transparent polyester film	Material	Transparent polyester film
± 7.0 g	Weight (g)	± 4.0 g
0.17 ± 0.01	Thickness, mm	0.10 ± 0.005
Min. 36	Wet index	Min. 36

91 at 700 nm 85 at 400 nm	Light transmission, %	85 – 92
MD – 23 CD – 29	Tensile strength, MPa (min)	MD & CD – 147
MD – 70 CD – 47	Elongation, % (min)	MD & CD – 80
400-800	Autofluorescence, nm	548.1
72	Air Particle Count Average particle release rate at particle $\geq 0.5\mu$ (particles/minute/ piece)	73
Class 10/ISO Class 4 & EU GMP Grade A/B and other sterile cleanrooms	Cleanroom Compatibility	Class 10/ISO Class 4 & EU GMP Grade A/B and other sterile cleanrooms
Gamma irradiation	Sterilization	Gamma irradiation
Yes	Anti-fogging properties	Yes

Please note that only the visor material is changing. The face mask material, packaging and processes all remain the same.

Should you have any questions regarding any items covered by this announcement please contact your local Ansell Nitritex customer service or sales representative.

Thank you for your continued loyalty and support.

Yours faithfully,
