

Concerning: YEAR-END CLOSURE

Dear valued customer,

Following previous communications sent regarding the implementation of an automated inner wrap packing process for the sterile glove styles listed below (to speed up the packing process and reduce the risk of contamination), we wanted to remind you of this change as it's been some time since this change control notification was sent.

To recap, the previous communication (Ref: LSCCN021) stated...

As part of our future-ready investment programme, we have invested heavily in new automated packing machines and new packaging technology to deliver products that maintain or increase the level of quality while we minimize the use of resources.

Automated Inner Wrap Packing

The current process of inserting the gloves into the inner wrap is a manual process which slows down packing and therefore output. The automated process will increase productivity and free up valuable human resources to undertake other essential activities, with the added benefit of less worker contact reducing the potential for cross-particle contamination. The automated process will also eliminate the need for workers to carry out repetitive tasks in line with our CSR policies. Please note that the material, ink (used to print on the inner wrap), the packing configuration, and pairs per carton remain unchanged.

The styles in the new automated inner wrap are:

Product Style	Roll Out Date (Production)
BLAS	Sept 2021
BASL	Dec 2021
BENS	Feb 2022
BUPS	Feb 2022
BEXS	Mar 2022
BNPS	Oct 2022
BPSL	Dec 2022
S-BFAP	Dec 2022
BNAS	Jan 2023
BSNS	Apr 2023
AL300	Apr 2023

The new automated gatefold inner wrap looks as follows:

Please note that there is no change to the glove's form, function, or fit.

Please contact your local Ansell Customer Service department or your local Ansell Sales Representative if you have any questions regarding any of the information contained within this announcement.

Thank you for your continued loyalty and trust in Ansell.

Sincerely,

Ekaterina BOGOMOLOVA
EMEA Sr. Director, Marketing
